FACTS WORTH KNOWING

Keep it in mind that J. B Meiner & Son's coals have made good everywhere and every way. We are giving the public the benefit of our 25 years' experience in the coal business which enables us to select the very best grades of coals that money can buy. We don't waste our time with cheap coals. Our Pocahontas coal is absolutely the purest coal coming to Chicago. Note the government analysis, Volatile matter 18.46, fixed carbon 77.92, Ash 3.62, surphur 80, heat units (B. T. U.) 15119. Pure coal means that you are not buying slate or other impurities which as a rule weighs three times as much as coal.

Our Illinois coal is mined in Saline County and sold as "Harrisburg for Heat," it is today in the lead of all Illinois coals Burns up clean, no clinkers, and lasts all night, is perfectly screened and suitable for any purpose.

Our hard coal is the Delaware, Lackawanna & Western R R Co's Genuine Scranton Coal This coal burns up to a nice white ash, no clinkers and will suit the most exacting buyer. Hard coal prices will advance every month

Magician's Real Object.

We do not learn tricks of magic in order to deceive other people but to entertain them. The magician's object is not to mislead but to amuse.

Mildew Stains.

To remove mildew stains, rub with lemon juice and salt. The same treatment will remove peach and all fruit stains.

HELPING THE ENEMY

THE FUN OF SAVING MONEY.

The fun of saving money! Best fun in the world, once you get started Great game, isn't it, where every player wins, always, and no one could possibly lose.

What's the fun consist of? What constitutes the fun of any good game? The planning, the struggle, the contest; the spirit of competition, emulation, excitement, the rush, the climax, the triumph of making goal

What's the cost, the price of admission? Just the cost of any good game; time, energy, the letting go of nonessentials for the joy of realized ambition and success.

What's the reward? The game and its gaining. The bliss of fighting, climbing, fighting and climbing to win

What's the method? Begin and keep going Make a start, set a goal and attain it. Start again and make the same goal in shorter period Set a new and sterner goal and time limit and beat the record again

Uncle Sam can't be beat as a partner, game credits foot up before you know it, and it doesn't cost much to sit in.

Japanese Idea of Music.

Among the Japanese especially, a directly divine origin is attributed to music. The mythical legend runs that the art was invented by the gods to appease the anger of the sun goddess and to induce her to shine once more upon the earth and upon the other divinities. The melodies which resulted were potent to prevail upon her, and thus was light restored to the world and music and dancing were given for its delight.

Costs Money to Use Chair

There is a "public house" in Dumfries where may be seen an old armchair alleged to have been invariably used by the poet Burns when he visited the place All who sit in this chair are required to "treat" all who may be in the room at the time

Mrs J B Mann, while enroute to her home in Baltimore, Md, is visiting at the home of Mrs R Walsh, 8553 Emerald Ave

That's How It's Done.

A black mammy's recipes for her cakes: "Why, sure, honey, I'll tell you jess how to do it. You takes as much meal as you wants, mix in some flour an' three or four aigs, put in milk 'nough to make it thick as it oughter be, don't forgit a pinch or two o' salt and a good-sized lump o' butter; drop in a little sugar, too, den fill de little pans an' put 'em in de oven . . . till dey's done, honey"

Aid in Self Mastery.

It is a good practice for people to make a practice of doing something every day for their development, that they don't want to do, and then to deny themselves every day something they want This should not be for a day a week or a year, but a life work In no other way can a man become master of himself —Dr J H Telden.

Maelstrom of Norway.

The maelstrom of Norway is a dangerous whirlpool off the coast of Norway, caused by a rushing of the currents of the ocean in a channel between two of the Loffoden islands, and intensified at times by contrary winds, to the destruction (according to the stories) often of small craft caught in the eddies of it, and sometimes of whales attempting to pass through it.

One Word Spoils All.

Just when a woman begins to be invited out a little by nice people her husband spoils all by referring to the laundress as the washerwoman right out where everybody can hear.—Ohio State Journal.

Importation of Intestines.

Intestines are imported into the United States from China to the extent of nearly $400,000 worth a year. They are used by packing houses for sausage casings. The intestines are prepared for shipping at Shanghai, Hankow, or Tientsin by being scraped, cleaned and preserved with salt and salt water, and packed in oak barrels having a capacity of 2,500 to 3,000 bundles with about 30 per cent salt. Pig intestines are exported in a dried condition.

Japanese as Gymnasts.

Nearly all Japanese soldiers are expert gymnasts, and every barrack has a gymnasium. So well trained are they that in less than half a minute they can scale a wall 14 feet high by simply leaping on each other's shoulders, one man sustaining two or three others.

"IF" OR "SUPPOSING"

By GEORGE ADE.

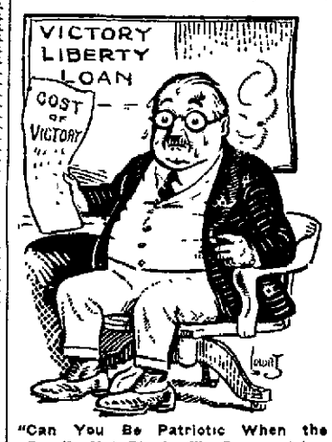
On October 1, 1918, you, being a wise man and having read with care the opinions of military experts, knew:

1. That the great war was going to last until far into the summer of 1919

2. That the casualties among the American soldiers would be increasingly heavy up to the final moment of fighting

3 That, as a result of the growing magnitude of the world struggle, the government of the United States would call upon us for at least three huge bond subscriptions during 1919

If you believed otherwise you were in the minority for the cabinets of all the nations united against Germany and the bankers and the shipbuilders,



"Can You Be Patriotic When the Band's Not Playing?"—George Ade.

and the masters of food supplies thought they knew that Germany would stand out for many months

Now then, to suppose a case If some one had come to you on October 1 with a proposition to end the war within six weeks by a complete and overwhelming victory on condition that you would subscribe liberally for Victory bonds in the spring of 1919, you would have replied as follows

"Say, end the war this fall and stop the killing and maiming of our boys, and put the kaiser out of business and compel Germany to accept our terms and let the American soldiers begin to head for home, and I'll pledge my last dollar for the loan that is needed to clean up expenses"

That's how you felt on October 1, 1918, and now that all the miracles have come to pass, are you going to be grateful or forgetful?

You are now asked to help finance (by merely lending on favorable terms and not giving) the final and gigantic expenditures which brought victory months ahead of the schedule.

If we had lost the war, what would you be paying this spring and to whom? How's your memory? Did you feel certain, just a year ago today, that Germany could be prevented from dictating terms to the whole world?

How about a loyal parent who refuses to pay a doctor bill because the child gets well instead of dying?

When you tackle a big job do you stick to the finish, or do you go fishing and permit some more dependable man to come in and put on the roof and chimney?

Do you experience symptoms of morality only when the doctor is seated at the bedside?

When you start to go somewhere, do you travel four-fifths of the way and then flop by the wayside?

Can you be patriotic when the band is not playing?

We are settling up a big job, so don't queer your war record at the eleventh hour by being a quitter.

—HELP "FINISH THE JOB."—

UNCLE SAM PAYING HIS DEBTS

Government's Credit Standing High, Because of Rapidity of Payment of His Obligations—Now a Creditor Nation.

If you were asked to lend money to a private citizen you would ask, "What are this man's prospects? Is his business showing a satisfactory growth? Is he paying off his debts and piling up a surplus?"

When you are asked to lend your money to Uncle Sam you can safely ask the same questions. The American government soon will ask for another great loan. Therefore, now is the time to satisfy yourself that Uncle Sam will be an A-1 debtor.

The first thing that will impress you, when you come to investigate the old gentleman's credit standing, is the rapidity with which he has been paying off his debts and becoming himself a creditor. In 1914, when the war broke out, the nation owed four billion dollars ($4,000,000,000) abroad and had to pay interest on that amount every year

Now all but about one fourth of this big debt has been paid off, and the government of the United States has lent abroad a total of ten billion dollars ($10,000,000,000). Instead of paying interest to Europe today, Uncle Sam is now in a position to ask and receive from Europe a total of at least five hundred million dollars ($500,000,000) a year in interest. That sum from across the water each year will pay more than half the interest the government will owe to its people on all the Liberty bond issues, including the fifth.

Uncle Sam certainly can show a good set of books. His credit is a-1 with every credit agency in the country.

The Children's Banker.

HER FIRST REAL MONEY

"This card represents my first real money," recently said a farmer's wife, with an odd look of mingled pride, deprecation and something very like triumph.

"At home, as a girl, I had no money. Mother bought things for us children with whatever money father gave her. Since I've been married it's been much the same. I've got things at the town stores and Jim's paid for them. Even my egg and butter money has gone, as a rule, to help with the household upkeep—turned in on the grocery bill, usually. I've never seemed able to hold on to a penny

"But when the War Savings Stamps came along I said to myself, 'Here's your chance, Mary!' And now I buy War Savings Stamps regularly, take 'em in change as regularly as I sell chickens or cash the creamery check at the bank. I've filled several cards already, and I can tell you I gloat over 'em! When those War Savings Stamps mature I'll have real money of my own"
